Public Notice No.80 /2015

Date: 29/10/2015

This is to advise all exporters and the general public on export of scrap metals and aluminum can products. It has been a practiced that some exporters of these products are classifying both aluminum and metal scraps under 7204.0000 @ \$1.50 per ton which should be classified separately according to their respective tariff headings. Proper classification is determined as below:

- Aluminum scrap falls under 7602.0000 @ 15% on FOB value.
- Scrap metal falls under 7204.1000 @ \$1.50 per ton

Please be advice that all exporters of scrap metals are advised to make proper declarations on your new SADs and to be reflected with proper calcifications on your export of scrap metals.

By copy of this public Notice all officers and public are asked to take note on this notice commencing next week Monday 2nd Nov.2015

29 Oct 2015
